WW2

How Ww2 started

World War II began in Europe on September 1, 1939, when Germany invaded Poland. Great Britain and France responded by declaring war on Germany on September 3. The causes of the war are debated, but contributing factors included the rise of fascism in Europe, the Spanish Civil War, the Second Sino-Japanese War, Soviet–Japanese border conflicts, and tensions in the aftermath of World War 1. Adolf Hitler's aggressive and ambitious foreign policy aims also contributed to the war.

BATTLE OF BRITAIN

The battle of britain occurred on the 10 July - October 1940. The Battle of Britain mostly happened in the sky not the land and it was against the RAF and the Luftwaffe.

Who is Winston Churchill?

As prime minister (1940–45) during most of World War II, Winston Churchill rallied the British people and led the country from the brink of defeat to victory. He shaped Allied strategy in the war, and in the war's later stages he alerted the West to the expansionist threat of the Soviet Union.
